# The Gabi™ System
Quick guide

Setup your Gabi™ system

To be able to complete this setup, you must have access to Wi-Fi.

(1) Select the right bracelet size

| Band size	S	M	L
Patient's upper arm circumference	<150mm	others	>180mm
Patient's weight	< 15kg	9kg – 20kg	> 18kg

(2) Attach gently the bracelet to the sensor (size label of the bracelet and gabi logo of the sensor on the same side).

(3) Put the Gabi^{TM} Band and the Gabi^{TM} Monitor Tablet to charge
(4) Power ON the Gabi^{TM} Monitor Tablet

(5) If not launched yet, launch the Gabi^{TM} Monitor Application
(6) Configure your Wi-Fi network.
(7) If not done yet, plug your Gabi^{TM} Band on the power.
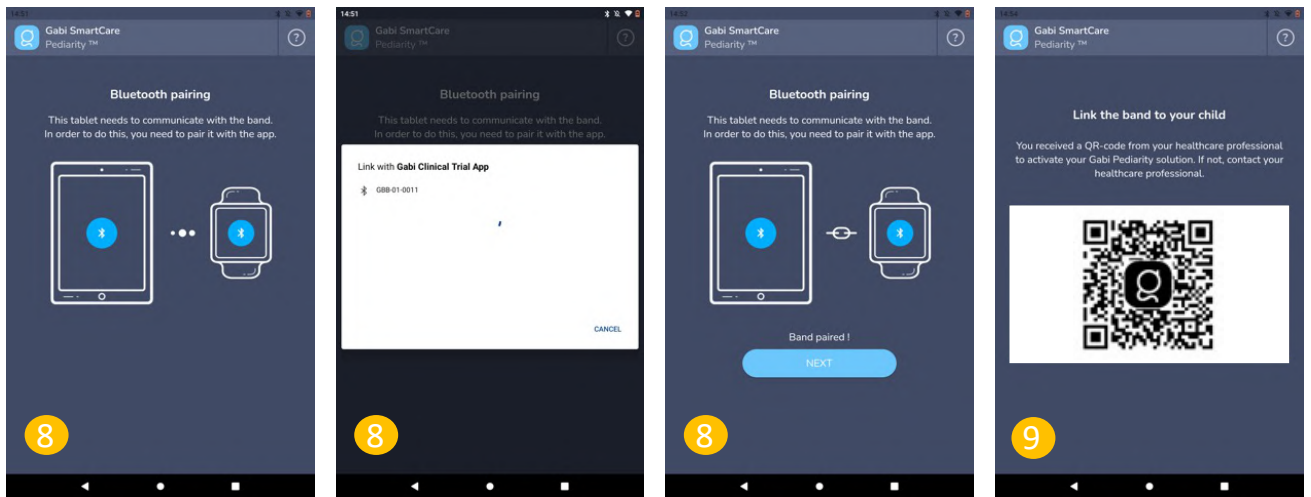

(8) Pair the Gabi^{TM} Band with the Gabi^{TM} Monitor Application. If your Gabi^{TM} Band is not listed, please unplug, and plug it again.

(9) Scan the QR code you received from your physician.
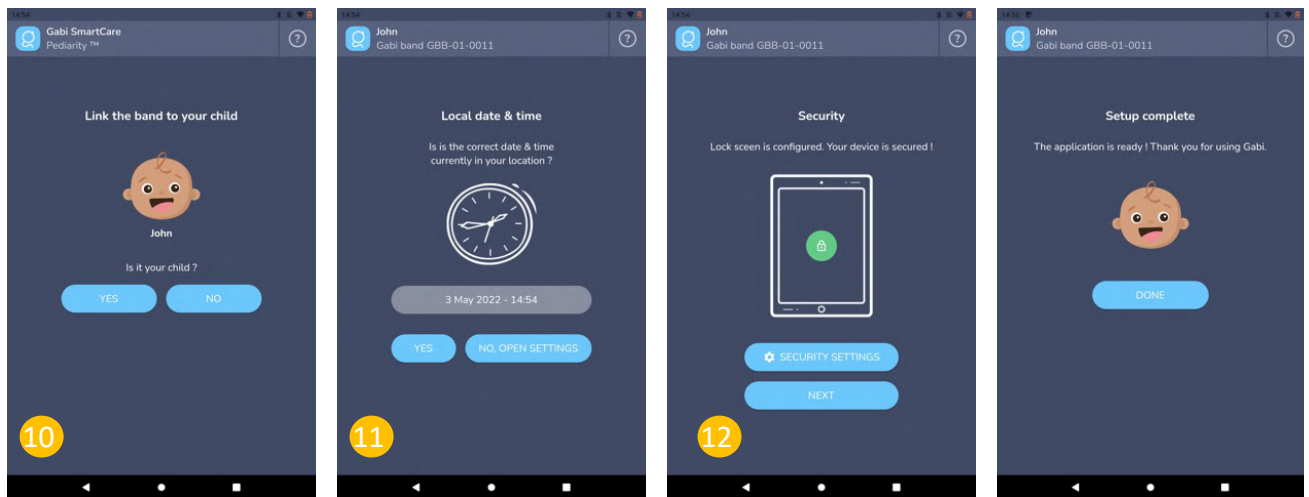

(10)   Check and confirm your child's first name.

(11)   Check and confirm the current date and time.

(12)   Define a pin code or a pattern to unlock the Gabi^{TM} Monitor Tablet.

You are ready to use your Gabi™ system! If you face any issue during the setup, please refer to the instructions for use included in your

Before starting a recording

Each time you plan a recording (i.e., when your child is about to go to sleep/nap), follow these steps:

(1) Disconnect the Gabi™ Band from its charger.

(2) Verify that the sensor unit's green <u>and</u> red lights are blinking

(3) <u>Within 5 minutes</u> following charger disconnection, place the Gabi™ Band on the upper arm of your child **in contact with the skin**, **halfway between the shoulder and the elbow.** The Gabi™ Band needs to be firmly attached to the arm. When closed, it cannot turn around the arm or translate along it.

⚠ The Gabi™ Band needs to be placed in direct contact with the child's skin, not on top of clothes.

⚠ Do not squeeze the bracelet too hard, your child's blood needs to circulate normally and be careful not to pinch your child's skin.

⚠ If you child is wearing long sleeves' clothes, make sure to choose one that is not too tight to keep room for the Gabi™ Band.

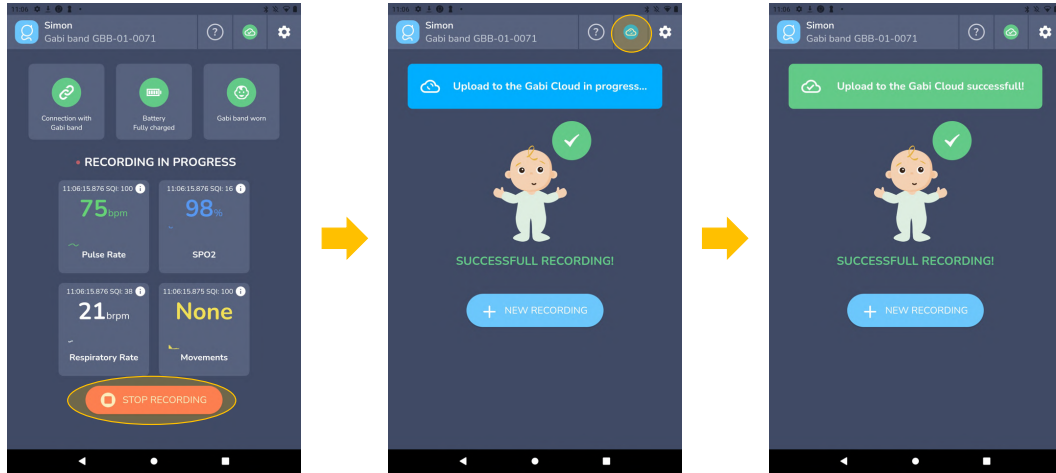

(8) Open the Gabi™ Monitor Application on the tablet.

(9) Verify that the 3 Gabi™ Monitor Application statuses are green and press "Start recording".
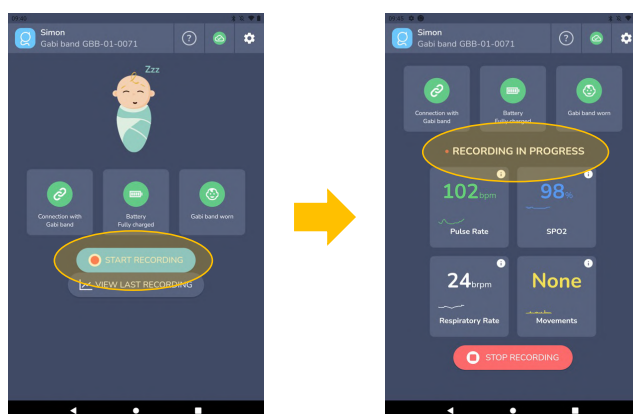

At the end of the recording period

When you want to end the recording (i.e., when your child wakes up), follow the steps below:

(1) Open the Gabi^{TM} Monitor Application.

(2) Press on "Stop recording".

(3) Remove the Gabi^{TM} Band from the child's arm.

(4) Connect the Gabi^{TM} Band to its charger and place it out of reach of children.
